KING'S TREASURER HERE

Dudley Ward, M. P., Arrives to Join His Cousin, Oliver Brett.

(Copyright, 1911, by the Brentwood Company.) lliam Dudley Ward, who arrived night before last on board the Olympic to join and give his support to his first cousin, the Hon. Oliver Brett, whose engagement to Miss Antoinette Heckscher, of New York, just now the subject of many rumors, has been a Member of Parliament for Southampton since 1906, and is treasurer of the royal household. He is a son of the late W. Dudley Ward, of the 14th Hussals, who married the sister of Viscount Esher, and is a grandson of Humble Dudley Ward, brother of the late Earl of Dudley; while his grandmother, Mrs. Dudley Ward, died as Mme. Christian de Falbe, Danish Ambassadress in London and the most intimate personal friend of Queen Alexandra. It used to be said that when Queen Alexandra's daughters were young girls never allowed them to read any book that had not previously been approved by Mme. De Falbe, and it was under the trees of her grand old country place, Luton Hoo, in Bedfordshire, that the Duke of Fife wen the hand of the Princess Royal and that Queen Mary, when a girl, became engaged to King George's elder brother, the

uke of Clarence. William - udley Ward, now here, was always the favorite grandson of Mme. de Falbe, one of the sweetest old ladies and most notable figures in English society during the last quarter of a century of her life, and as such Dudley Ward stands parneularly high in the good graces of his grandmother's royal friend, Queen Alexandra, who has known him from earliest to his grandmother, very well off.

An Old Baronet's Suicide.

Although Sir Henry Ingilby, who blew his brains out the other day at Ripley t'astle, his place in Yorkshire, was only the second baronet of his line, yet he represented a very ancient family indeed, for the inglibys were already flourishing at Ripley Castle in the reign of Edward III and the castle was the scene of that memorable encounter between the Lady Insilby of the day and Oliver Cromwell, a scene portrayed by many an artist and which showed how Cromwell, shortly after the battle of Marston Moor, spent a night in the castle, half sitting, half reclining, on a couch in the hall and watched by Ingilby throughout the live-long night, with a couple of pistols in her belt ready to shoot him on the slightest provocation. Her husband was at the time with the King. When her unwelcome guest ok his departure on the following morning she intimated to him that if he had escaped with his life it had been owing entirely to his good behavior.

A feature that strikes the visitor on entering the grounds of Ripley Castle is the inscription carved over the lodge en-peace. New Y trances, "Parlez au Suisse" ("Speak to the Swiss")-a relic of the eighteenth century,

He is succeeded in the baronetcy and in the possession of Ripley Castle by his only brother, William, a veteran of nearly eighty of the old Indian army. He makes his headquarters in Loudon at Boodle's Club and has two sons, the eldest of whom, Captain William Inallby, of the Scots Guards, married the Alberta Vivian, daughter of the first and enormously rich Lord Swansea.

Lord Lamington is no mere tyro in Per ian affairs, having achieved considerable ome as an Asian explorer. He was the first white man to enter and explore the Shan States, and on one occasion disapwared for so long a period in the wilds of sia that he was given up for lost, subsemently returning, however, to civilization with a wonderful amount of information. le has been in turn Governor of Queensland and of Bombay, which latter post he was topelled to resign on account of the health t his wife, who was one of the girlhood riends of Queen Mary, and is now one of

According to the popular legend current throughout Scotland, and there universally selicted, the patriot Wallace contracted a marriage with the fair Marion de Bradfute of Lamington Castle. She was killed some years later by the English, after having successfully managured the escape of her Eben Plympton and the other members of husband, but left a daughter, who married one of the Baillies, who became through her Century Theatre, as well as by Robert the owner of Lamington. B., grandson of the eighth earl of Dundonald, and the son born of this matrimonial alliance assumed on succeeding to Lamington Castle and to the other property of both his parents their names of Cochrane-Baillie as his patronymic. He was one of the warmest friends of Disraeli, their intimacy dating from boyhood, and the story goes that when the two were lads at school young Disraeli, who was already then indulging in dreams of future greatness, promised Cochrane-Baillie: When I am Prime Minister of England, Cockle, I will make you a peer." This proved a prophetic promise, for when, in coroner's physician, who was operated on course of time, Discaell became Premier he

ament for a period of forty years. The late Lord Lamington was in his youth one of the members of the famous Young England party, and figures in many of Beaconsfield's novels, especially in "Coningsby,

under the name of "Buckhurst." With regard to Lamington Castle, it stands within a stone's throw of the Clyde, surrounded by a superb park filled with rees many centuries old. It is full of hisoric memories and relics of Sir William Wallace, of Mary Queen of Scots, who stayed there on her journey to Dundrennan, and of the Young Pretender. Indeed, the rooms occupied by Sir William Wallace in the old tower are still shown.
